

If Davis Waste Removal (DWR) is hauling your C&D debris

Construction & Demolition (C&D) Debris Diversion

Under State law and by local ordinance, all C&D Projects must recycle or reuse 65% of their waste debris. When DWR hauls your debris to the Yolo County Central Landfill for C&D recycling, 100% compliance is assumed and you fulfill this requirement.

➔ **STEP 1:** Fill out the C&D Debris Diversion Plan form and submit it to the Building Division.

➔ **STEP 2:** Contact DWR to order a C&D debris recycling dumpster.

➔ **STEP 3:** Fill the DWR dumpster with C&D debris from your project.
See the back page for a list of materials that are accepted in dumpsters.

➔ **STEP 4:** When your dumpster is full, ask DWR to empty it as C&D debris for recycling.

Tips to reduce landfill charges

1. Order 10-yard container for dirt or concrete. Mixed loads of dirt and concrete are accepted at reduced rate. Clean dirt and concrete material can be dumped at reduced tipping fee.
2. Segregate wood waste and place in wood-only box. Rate for clean wood waste is lower than regular rate.
3. Don't throw away clean, empty cardboard boxes. Stack on job site and call DWR for free pick-up.

- I will order C&D debris bins for this project from Davis Waste Removal.
- I will ask Davis Waste Removal to haul the C&D debris from this project to be RECYCLED at the Yolo County Central Landfill.
- I understand that 65% of the C&D debris from this project must be recycled.
- I will put forth a good faith effort to ensure that a minimum of 65% of the C&D debris from this project will be recycled.
