

Zero IN Vacaville Dixon

Recology Santa to the Rescue!

Recology Santa once again saved the holiday for a local family. **Recology** employees donated money to purchase gifts, gift cards, tree, and ornaments for a mother and her two children. The family faced a bleak holiday due to financial struggles. The generous employees wrapped the gifts with special messages for the mom and children. They then delivered the gifts just in time for the holiday.

Recology employees pictured above include Barbie Bagwell and Lenny Bertolina. **Recology** employees donated funds for gifts that they delivered to a local mom and her two children just in time for the Christmas holiday.

Recology Trashes Cancer!

Presenting the check to Midnight Sun Foundation are (left to right) Elizabeth Fry, Sue Laren, Marleen Maltby, Scott Pardini, Julia Lopez, Barbie Bagwell, Melanie Calabrese, Megan Hillendahl, Regina Martin-Romo, Sara Brooks, and Johana Preciado.

A check for \$14,225 was presented to the Solano Midnight Sun Breast Cancer Foundation in November by **Recology** employees. The funds were raised through the **Recology Vacaville Solano** and **Recology Dixon** Pink Toter® program. Caring customers lease the pink Toters® and all funds from the leases are donated to help families in our neighborhoods who are battling cancer. Contact us about leasing a pink Toter® to show your support.

Winter Tips & Updates

Compliance Solutions

If you are a commercial customer who generates more than four cubic yards of waste, then you are required to subscribe to both recycling service and organic service. Fortunately, **Recology** provides the support needed so you comply with the law.

Organic waste includes plant material either from landscaping maintenance or food preparation. Customers can comply with the law and help the environment by diverting waste from your residual waste container to your recyclables.

Check your invoice to see if your service level is four cubic yards or above. If so, you must comply with the recycling regulations.

Recology Waste Zero experts will help you comply with these regulations. We will customize a program that works best for you. Contact us through recology.com or call us at 448-2945 in Vacaville or call 678-4026 in Dixon.

ROC Star Barbie!

Recology Vacaville Solano/Recology Dixon has named Payroll and Purchase Order Coordinator Barbie Bagwell a **Recology** Owners Commitment (ROC) Star! **Recology** is a company that is owned by the employees who work for it. Barbie was nominated as an exceptional employee-owner who goes above and beyond.

Barbie Bagwell

"I always try to do everything I can to help customers," Barbie explains. "I love the family environment here at **Recology**. As employee-owners, we all want to do the best job possible."

Barbie has only been in her position for a short time, but she quickly mastered her job.

"Everyone here at **Recology** is awesome," says Barbie. "I plan on working here a long time."

Barbie lives in a rural area outside of Dixon with her husband Ron, where they raised their two sons, Cody, age 27, and Jeffery, age 23. When not working, she enjoys gardening and salmon fishing with Ron in Oregon.

Easy Payment Options

There are many convenient ways to pay your **Recology** bill. In addition to in-person at our office or through the US mail, customers may also pay by phone or online.

To pay by phone call 707-305-1275 anytime. Have your account number ready.

To pay online click recology.com and navigate to the E-BillPay page. Customers may make a one-time payment or create an online account for periodic payments.

We accept American Express, Discover, Visa, and Mastercard credit cards, or we can debit your bank account.

Assembly Bill 1826

- Adopted September 28, 2014.
- On and after April 1, 2016, businesses that generate 8 cubic yards or more of organic waste per week shall arrange for recycling services.
- On and after January 1, 2017, businesses that generate 4 cubic yards or more of organic waste per week shall arrange for recycling services.
- On and after January 1, 2019, businesses that generate 4 cubic yards or more of commercial solid waste per week shall arrange for recycling services.
- Returning organic materials to soils reduces greenhouse gases and conserves landfill space.
- Food is the largest single source (15.5%) of all waste in California.
- More than six million tons of food products are discarded in California landfills every year.
- The **Recology** compost facility has been converting food waste and green waste into rich organic compost for years.
