

**Supporting our mission to create a world without waste,** the Recology store offers products that promote a zero waste lifestyle. All products at our four locations meet one or more of the following criteria: They are designed to replace disposable items, made from recyclable materials, upcycled, locally made, or provide education about waste reduction. The Recology store also accepts drop-offs of hard-to-recycle items (see reverse side for details) and can help you with billing and customer service issues.
