WHAT IS ZERO WASTE

THE PROBLEM
Landfills are a significant source of the potent greenhouse gas methane, so it is important that we divert materials from landfill disposal.

WHAT DOES ZERO WASTE LOOK LIKE?
It is not about getting to zero. It is a commitment to reduce waste generated and reuse/recycle waste created in an attempt to minimize the overall waste delivered to landfills. Zero Waste supports:

• Reducing waste
• Promoting the best and highest use of material
• Promoting more sustainable consumption
• Endorsing resource conservation and preservation

DEFINITION OF ZERO WASTE
Zero Waste: The conservation of all resources by means of responsible production, consumption, reuse, and recovery of products, packaging, and materials without burning and with no discharges to land, water, or air that threaten the environment or human health.

Source Zero Waste International Alliance zwia.org

LOCAL COMMITMENT
Jurisdictions in Sonoma County have implemented or are considering a Zero Waste Resolution with the goal of diverting 90% of all material from landfills by 2030. Furthermore, many jurisdictions have implemented Climate Emergency Resolutions with waste reduction related components.

Visit zerowastesonoma.gov/zw-resolution for more information.

SEE ZERO WASTE LIFESTYLE PAGE 10
California SB 1383 will require a 75% reduction of statewide landfill disposal of organic materials and a 20% increase in food recovery for human consumption by 2025.

PREVENT FOOD LOSS AND SAVE MONEY

CHECK YOUR SUPPLIES BEFORE SHOPPING Use up the food you have.

STICK TO A GROCERY LIST to avoid impulsive buying. Don’t shop when you’re hungry.

PROACTIVELY FREEZE bread, vegetables, dairy, and meat before they go bad if you buy in bulk and don’t go through the food fast enough.

BUY A VARIETY OF FOOD Some foods last longer than others. Eat leafy greens and mushrooms first, but keep root vegetables and squash in the pantry to eat later.

PURCHASE FOOD THAT IS IN SEASON for the greatest value, least embedded food miles, and longevity of shelf life. Further, consider purchasing from local farmers and markets first when planning your shopping; that ensures seasonality, freshness, minimal packaging, and maximum impact on the local economy.

FOR MORE TIPS, VISIT STOP FOOD WASTE stopfoodwaste.org

COMPOST AT HOME OR AT THE CURB

Food loss prevention and food donation are best, but if you need to dispose of food...please compost. Turn your organic materials such as leaves and food scraps into a nutrient-rich soil amendment. Compost helps plants grow and improves water retention in soil.

COMPOST AT HOME. ASK A MASTER GARDENER FOR ADVICE.

Master Gardener volunteers are trained and certified by the University of California Cooperative Extension. Call or email your home composting questions.

COMPOST AT THE CURB

All food scraps are accepted in areas serviced by Recology Sonoma Marin and Sonoma County Resource Recovery. Please note that customers of Sonoma Garbage Collectors may compost all food scraps except meat, cheese, and bones.

SEE CURBSIDE SERVICES PAGE 6

PROBLEM WITH BIODEGRADABLE AND COMPOSTABLE PLASTIC PRODUCTS

Plates, bowls, cups, utensils, bags, or other food service ware labeled biodegradable or compostable cannot be composted in the backyard or placed in curbside carts. Backyard compost piles don’t have high enough temperatures to break them down. Industrial composting facilities cannot easily distinguish these products from conventional plastic products, so they are screened out and sent to the landfill. Please choose reusable items whenever possible and place compostable plastic products in the garbage bin.

BUY POST-CONSUMER RECYCLED

The recycling industry is controlled by economics of supply and demand. When you buy goods made with recycled content, your purchases help create a demand for materials collected in recycling programs.

Remember to ask stores you frequent which products they carry are made with post-consumer content. This means the product was made from materials that were used and recycled by consumers, rather than from virgin material.

USED MOTOR OIL AND FILTER RECYCLING

ARE YOU A DO-IT-YOURSELFER? RECYCLE YOUR MOTOR OIL AND FILTER TOO!

HOW TO USE OIL COLLECTION SITES

DID YOU KNOW THAT USED MOTOR OIL NEVER WEARS OUT? IT JUST GETS DIRTY AND CAN BE RECYCLED, CLEANED, AND USED AGAIN. Place your motor oil in a drain pan or sealed see-through reusable container you take back with you. Some sites offer a 40¢ per gallon rebate for used motor oil.

VISIT SITES DURING BUSINESS HOURS. ABANDONING OIL OR ANY OTHER SUBSTANCE IN ANY QUANTITY AFTER HOURS IS NOT RECYCLING! IT IS ILLEGAL, PUNISHABLE BY IMPRISONMENT OR A FINE UP TO $10,000.

- Sites typically accept no more than 5 gallons of used motor oil and 2 filters at one time.
- One or 2 oil filters are usually accepted for free; some locations charge up to $3.
- Antifreeze fees range from no cost to $3/gallon.

ABOUT CONTAMINATED OIL

Sites will not accept used motor oil that has been contaminated with other fluids such as antifreeze, solvents, gasoline, or water. Even a small amount of contamination causes the entire tank of motor oil collected to become non-recyclable. For proper disposal of contaminated motor oil, SEE HOUSEHOLD HAZARDOUS WASTE PAGE 4.

BUSINESS LAWS

SB 1383 SHORT-LIVED CLIMATE POLLUTANTS

APPLIES TO ALL COMMERCIAL ENTITIES, INCLUDING FOR-PROFIT AND NONPROFIT ORGANIZATIONS, PUBLIC AND PRIVATE SCHOOLS, GOVERNMENT BUILDINGS, AND MULTIFAMILY RESIDENTIAL DWELLINGS.

Signed into law by Governor Brown in 2016, SB 1383 mandates statewide actions to reduce greenhouse gas emissions and air pollution. The bill establishes two main targets:

BY 2020
Reduce disposal of organic materials in landfills by 50% from the 2014 level.

BY 2025
Reduce disposal of organic materials in landfills by 75% from the 2014 level. By this point, no less than 20% of edible food currently disposed must also be recovered for human consumption.

SB 1383 serves as the regulatory force behind both AB 341 and AB 1826, and it imposes heavy fines for noncompliance.

For edible food donation options, visit zerowastesonoma.gov/materials/food

AB 341 MANDATORY COMMERCIAL RECYCLING

APPLIES TO ALL COMMERCIAL ENTITIES AND ESTABLISHMENTS THAT PRODUCE 4 CUBIC YARDS OR MORE OF COMMERCIAL SOLID WASTE PER WEEK. THIS INCLUDES FOR-PROFIT AND NONPROFIT ORGANIZATIONS, PUBLIC AND PRIVATE SCHOOLS, GOVERNMENT BUILDINGS, AND MULTIFAMILY RESIDENTIAL DWELLINGS WITH 5 OR MORE UNITS.

Signed into law by Governor Brown in 2014, AB 341 mandates commercial entities that meet the 4 cubic yard threshold to divert recyclables from the landfill.

RECYCLING INCLUDES CARDBOARD, PAPER, PLASTIC, GLASS, AND METALS

HOW TO COMPLY
Businesses can do any combination of the following:

• Self-haul to a recycling facility.
• Sign up to have your recyclables picked up by your local hauler. SEE CURBSIDE SERVICES PAGE 6
• Make other arrangements for the pickup of recyclable materials.

AB 1826 MANDATORY ORGANICS RECYCLING

APPLIES TO ALL COMMERCIAL ENTITIES AND ESTABLISHMENTS THAT PRODUCE 4 CUBIC YARDS OR MORE OF COMMERCIAL SOLID WASTE PER WEEK. THIS INCLUDES FOR-PROFIT AND NONPROFIT ORGANIZATIONS, PUBLIC AND PRIVATE SCHOOLS, GOVERNMENT BUILDINGS, AND MULTIFAMILY RESIDENTIAL DWELLINGS WITH 5 OR MORE UNITS.

Signed into law by Governor Brown in 2014, AB 1826 requires commercial entities that meet the 4 cubic yard of solid waste threshold to divert organic materials from the landfill. Solid waste means the entire waste stream, including garbage and recycling.

THE STATE DEFINES ORGANICS AS FOOD, GREEN MATERIALS, LANDSCAPE/PRUNINGS, NON-HAZARDOUS WOOD SCRAP, AND FOOD-SOILED PAPER

HOW TO COMPLY

• Sign up to have your compostable food scraps and green material picked up by your local hauler. SEE CURBSIDE SERVICES PAGE 6
• Compost on-site. For helpful resources and information on regulations, visit calrecycle.ca.gov/organics/compostmulch
• Self-haul or back-haul to a composting facility.
• Donate food to feed people or animals. SEE ZERO WASTE LIFESTYLE PAGE 11

WHAT'S THE PROBLEM
DANGER TO WORKERS

California State Law makes it illegal to dispose of home-generated syringes/needles in the garbage or recycling bin. This includes needles, syringes, and lancets used for the care of people and animals. When placed in the garbage or recycling bin, sharps can injure sanitation workers.

HOW TO PREPARE

• For drop-off, syringes/needles must be in FDA-approved sharps containers.
• The only legal way to transport used sharps is in an FDA-approved sharps container.
• The container must be labeled Sharps Waste and Biohazard.
• Sharps waste will not be accepted in paper bags, plastic bags, or non-approved containers.
• Household Hazardous Waste programs will not accept sharps that contain controlled substances.
